### IN THE SPOTLIGHT

[Aqua Animal Care Center](#) was born out of a desire to bring more services to clients using a holistic approach to animal care. Companion Animal Wellness Center, their sister hospital, had no space to offer pet rehabilitation, training, and boarding services, so Aqua Animal Care Center was created to fill those needs.

Aqua Animal Care Center is a full-service rehabilitation

facility that partners with your veterinarian, orthopedic surgeon, or neurologist to tailor a rehab program to your pet's needs. Even though many patients come referred, a referral is not required to seek their services.

If your pet has started limping, is getting weaker, slowing down, or exhibiting pain, they can help you determine the cause and develop an individualized treatment strategy. Aqua Animal Care Center is here to provide your pets with all the advantages and opportunities they need to get back on their feet.

Boarding services are also available for daily drop-off while your pet undergoes rehabilitation exercises or for a longer extended care stay to ease completing physical therapy treatments. They specialize in creating a wellness package that works for you and your pet companion.

Find out more about their services at [www.aquaanimalcarecenter.com](http://www.aquaanimalcarecenter.com)
